Dear Mr. Wright,

Thank you for sending the PCB Remediation Completion Report (Report) dated March 2, 2012, for the Arkema Inc. West Plant Site, located at 17168 Jefferson Avenue in Riverview, Michigan. The Report describes remediation completed consistent with the approved site-wide PCB Cleanup Plan dated May 2010, and in accordance with the requirements of 40 C.F.R. § 761.

The Report states that contamination in 22 areas was addressed through excavation and confirmation sampling. An additional area was addressed through capping. The report states that deed restrictions have been placed on the property to identify use restrictions, consistent with 40 CFR § 761.61(a)(8); a copy of the deed restriction registered with Wayne County was submitted with the Report.
